

Communicate with Symbols and Recognizable Pictures

MEETS INTERNATIONAL ORGANIZATION FOR STANDARDIZATION (ISO) REGULATIONS

ISO (International Organization for Standardization) is a non governmental organization that enables a consensus to be reached on solutions that meet both the requirements of business and the broader needs of society. These labels provide an internationally understood graphical message that conveys an immediately understandable message.

Alert your employees to potential hazards and inform them of the appropriate precautions they should follow. For more information on ISO standards, visit www.iso.org.
