NMC'S EXHIBIT AT THE NSC SHOW RECEIVES NATIONAL RECONGITION...

NMC, the leading manufacturer of safety identification products in the Northeast received photo coverage from the NSC show in the December 2008 issue of *Safety & Health Magazine*. The photo of "the Beast", which was produced entirely with safety signs, represents the ability NMC has to create nearly any custom creation one would need. Whether it is a 6 foot dinosaur or a 3x5 OSHA required sign, NMC has the ability to satisfy ones needs.

The NSC show, which took place in Anaheim, California, sees over 18,000 attendees and has 800 exhibitors that inhabit the hall during the 3 days. The NSC show is the biggest throughout the safety industry. The NMC booth at the 2009 show this October in Orlando is sure to once again turn heads!

Founded in 1934, National Marker Company (NMC), headquartered in Slatersville, RI, is the leading manufacturer of safety identification products in the Northeast. NMC sells their top rated products exclusively through distributors throughout North America. They produce top quality products which includes, but are not limited to custom signs, standard signs, tags, labels, custom banners, lockout/tagout products, scoreboards and label machines. Through rapid growth each year, NMC has continued to be a leader in providing distributors superior products AND service within the safety industry. For more information visit www.nationamarker.com.
